WE ARE BUILDING A NEW TOMORROW With offices in 14 countries and dedicated to the Dynamics 365 products Finance, Operations, Retail, Customer Engagement and the Azure platform. Our client is focused on delivering standard, yet industry- and customer specific integrated Microsoft business solutions. A strong focus on retail, banking, pharma, manufacturing and construction supported by Microsoft strategy and investments in delivering the best cloud-based solutions with worldwide coverage. As a global organization our client take advantage of the Power Platform and other Azure technologies that extends the Dynamics 365 products. Due to exiting initiatives to strengthen the European organization even further, we are looking to hire a skilled D365 FO Functional Consultant, who wants to join an amazing company and support our growth and scale-up ambitions.

MICROSOFT D365 FO FUNCTIONAL CONSULTANT

YOUR PERSONALITY Are you an ambitious and experienced specialist (German speaking), who is passionate about creating complex and future-proofed ERP-solutions based on D365 FO, and want to provide clients with value adding consulting of very high quality? -if so, we offer you the chance to be a part of a strong family, where more than 650 skilled colleagues are waiting to welcome you to a culture with focus on ERP and CRM. As a person you are service minded and have a solid business acumen. You have a sharp eye for details and know the value of clear and effective communication and prioritizing. Others probably describe you as a dependable, knowledge-sharing team-player, who cooperates well with individuals at all levels of an organization. As our client is an international consultancy it's required, that you have excellent communication skills and are fluent in German and English. The position will be based in Zurich, but with an option to work in a flexible hybrid set-up.

SKILLS AND QUALIFICATIONS To be the right candidate for this position, we expect you to have a proven track record of working with Microsoft Dynamics 365 (and/or AX) either from an internal role or from a consultative perspective. You have an applicable educational background and relevant certifications and an already demonstrated capability in successfully driving international implementation projects. We furthermore expect you to have in depth IT-competencies within the platform e.g. configuration, experience documenting requirements and matching solution within finance (required). If you have knowledge of areas as fraud protection, supply chain, warehouse management and e-commerce it is seen as an advantage -but even more importantly you're willing to learn and grow as we're growing.

KEY RESPONSIBILITIES Design functional business processes and solution architecture. Establish overview of requirements defined by the customer. Optimize business processes and perform testing and reporting. Facilitate workshops with clients to analyze and design solutions. Collaborate with developers to ensure that client needs are met. Document, propose and discuss architecture and solutions options. Consider customer business strategies, requirements and challenges. Keep up your skills and focus on relevant industry trends. Be a superstar colleague and help grow the best workplace

YOUR PERSPECTIVE Fantastic Colleagues | Social Events | Flexible working | Latest Tech Devices | Excellent Insurance and Pension Scheme| Training & Development | Innovative Digitization Projects
