PUBLISHED ON: 01.05.2024

JOIN A DIFFERENT TEAM! Our client is one of the leading companies in Switzerland in the management of information systems. This company, made up of passionate specialists in advanced IT infrastructures, enables its clients, through its professional services, to focus on their core business.

We are now looking for an experienced person like:

ORACLE DATABASE CONSULTANT

BASEL, ZURICH OR BERN

TASKS AND RESPONSIBILITIES, You are a Consultant or would like to become one and have a HES, ETS or equivalent diploma. You specialize in designing, implementing, maintaining and optimizing Oracle database infrastructure.

PROFILE You demonstrate active listening skills, are curious, well-organized and naturally inclined to communicate and share your knowledge. You do not crack under pressure and are able to manage multiple activities keeping in mind your objectives as well as the client requirements. You are passionate about database technologies and aim to develop your technical skills within the ORACLE environment. Fluency in German (ideally mother tongue) as well as in English (spoken and written) is a must.

WORK EXPERIENCE AND EDUCATION

- Superior school diploma in IT sciences
- Confirmed experience in managing, optimizing and administrating production databases
- ORACLE Database server
- Apex
- PL/SQL
- Data warehousing and Tuning
- High Availability technologies such as Dataguard or Real Application Cluster

WE OFFER Joining us means integrating a dynamic company with highly skilled experts, allowing you to develop your technical knowledge in a very motivating environment. We will provide you with a wide array of internal and external development courses. We have been labeled as a "Great Place To Work" thanks to our excellent working conditions.

Note : If you have any questions or would like to know more about this position please contact Jean-Francois Garcia by Email- garcia@addexpert.ch or call Tel. +41 58 521 51 75
