BUSINESS & IT TRANSFORMATION! Our client is a business and IT consulting company that supports customers from the financial services, industry and public sector with customized solutions, primarily in German-speaking countries. Besides the customers, the company also puts the employees in the center of its vision and invests in training and exciting projects. For the further development of the Business Design team, we are looking for various qualified advisors in Switzerland:

REGULATORY & RISK EXPERT

YOUR CHALLENGE You advise clients on the interpretation and implementation of international standards and regulatory requirements in the field of sustainable finance (e.g. TCFD, SFDR, EU Taxonomy, MiFID II). You support clients in the implementation of new regulatory requirements in internal policies, guidelines and processes (e.g., consultation process). You review and adapt current governance structures to meet new sustainability requirements. You develop initiatives to promote a more sustainable corporate culture. You integrate ESG risks into the risk framework, risk management processes and reporting.

YOUR PROFILE You have a bachelor's or master's degree (e.g. law, public policy, finance) or at least 5 years of work experience (risk, compliance, legal department). You have experience in managing ESG transformation projects in the financial industry. You have good knowledge of the EU Action Plan and its implementation. You have management experience in wealth management and/or asset management. Know-how in risk management, risk management processes and regulatory reporting requirements. You understand banking and investment products (discretionary and advisory business, funds, asset classes). You have an aptitude for digitization and an interest in customer service through to IT solutions. Additional education/certifications in sustainable finance is a great advantage. You're fluent in English, German, French or Italian is an advantage.

YOUR PERSPECTIVE You can expect a challenging and varied job with a lot of personal responsibility, a pleasant working environment without an elbow mentality, a dynamic and well-functioning team as well as an international environment. You can continuously develop yourself on the job, with coaches and expert trainings. You are part of an innovative team that operates with little hierarchy and attaches great importance to a top atmosphere.
